Satellite / Barn Printer - Mac OS X Setup Instruction

You can print to any printer in computer barn or satellite printer in the campus using your own MacOS X notebook with the following installation steps:

If you are using the Multi-function printer (B&W or Color), please follow this setup guide and skip the following steps - <u>https://www.papercut.com/support/resources/manuals/mobility-print/mobility-print-devices/topics/en/client-setup-macos.html</u>

- If you are using the SCI/Home, E2I common's printer, please download the program from our server with this link using any Mac OS X browser

 http://itscapps.ust.hk/pgueue/PrintQueueTool.tgz
- 2. Double click the downloaded file and it will be expanded automatically
